**Exam** : **MB-920**

**Title** : Microsoft Dynamics 365  
Fundamentals (ERP)

**Version** : DEMO

### 1.DRAG DROP

A company plans to implement Dynamics 365 Supply Chain Management. Match each manufacturing strategy to its definition.

To answer, drag the appropriate manufacturing strategy from the column on the left to its definition on the right. Each manufacturing strategy may be used once, more than once, or not at all. NOTE: Each correct selection is worth one point.

**Manufacturing strategies**   **Answer Area**

Manufacturing strategies	Definition	Manufacturing strategy
Make-to-order		
Make-to-stock	Calculate minimum quantities required to replenish inventory based on historic consumption.	Manufacturing strategy
Configure-to-order	Trigger expensive steps of the value chain by using a sales order or transfer order.	Manufacturing strategy
Engineer-to-order	Create a prototype item based on specific requirements.	Manufacturing strategy

**Answer:**

**Manufacturing strategies**   **Answer Area**

Manufacturing strategies	Definition	Manufacturing strategy
Make-to-order		
Make-to-stock	Calculate minimum quantities required to replenish inventory based on historic consumption.	Make-to-stock
Configure-to-order	Trigger expensive steps of the value chain by using a sales order or transfer order.	Make-to-order
Engineer-to-order	Create a prototype item based on specific requirements.	Engineer-to-order

**4.DRAG DROP**

A company plans to implement Dynamics 365 Supply Chain Management. You need to recommend manufacturing process types for the company.

What should you recommend? To answer, drag the appropriate manufacturing process types to the correct scenarios. Each manufacturing process type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

**Manufacturing process types Answer Area**

Manufacturing process types	Scenario	Manufacturing process type
Discrete		
Process	Produce items including food and pharmaceuticals that cannot be reverted to original ingredients.	Manufacturing process type
	Produce items including automobile engines that may be disassembled.	Manufacturing process type

**Answer:**

**Manufacturing process types Answer Area**

Manufacturing process types	Scenario	Manufacturing process type
Discrete		
Process	Produce items including food and pharmaceuticals that cannot be reverted to original ingredients.	Process
	Produce items including automobile engines that may be disassembled.	Discrete
