Exam : **NSE6_SDW_AD-7.6**

Title : Fortinet NSE 6 - SD-WAN 7.6 Enterprise Administrator

Version : DEMO

1.Which SD-WAN traffic shaping technique prioritizes critical applications and limits bandwidth for non-critical applications?
A. Quality of Service (QoS)
B. Link steering
C. Application steering
D. Load balancing
Answer: A

2.In which rule strategy are cost and interface preference not considered selection factors?
A. Best Quality
B. Lowest Cost (SLA)
C. Maximize Bandwidth (SLA)
D. Manual
Answer: C

3.Refer to the exhibits, which show the VPN configuration on a spoke and a hub.

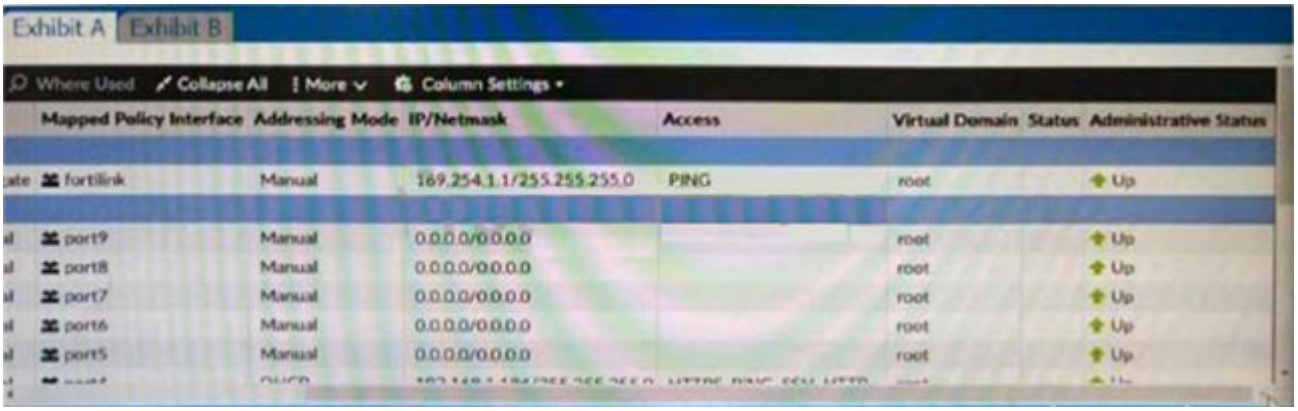
```
Hub_fgt# config vpn ipsec phase1-interface
            edit "T1"
                set type static
                set interface "port4"
                set ike-version 1
                set mode main
                set peertype any
                set exchange-interface-ip disable
                set mode-cfg disable
                set proposal aes256-sha256
                set auto-negotiate enable
                set negotiate-timeout 30
                set dpd on-demand
                set dhgrp 14 5
                ...
            end
        end
```

```
Spoke_fgt#config vpn ipsec phase1-interface
             edit "HUB1-T1"
                 set type static
                 set interface "port4"
                 set ike-version 1
                 set mode main
                 set peertype any
                 set exchange-interface-ip enable
                 set mode-cfg disable
                 set proposal aes256-sha256
                 set auto-negotiate enable
                 set negotiate-timeout 30
                 set dpd on-demand
                 set dhgrp 14 5
                 ...
             end
         end
```

The administrator wants to use those tunnels to build an SD-WAN topology.
Which one parameter must you modify to allow the tunnel to come up and be used in the SD-WAN topology?
A. Set exchange-interface-ip to enable on the hub side.
B. Change ike-version to 2 on the hub and the spoke.
C. Set the type to dynamic on the hub side.
D. Set mode-cfg to enable on the spoke side.
Answer: A

4.What are two common use cases for remote internet access (RIA)? (Choose two.)
A. Provide direct internet access on spokes
B. Provide internet access through the hub
C. Centralize security inspection on the hub
D. Provide thorough inspection on spokes
Answer: BC

5.Refer to exhibits



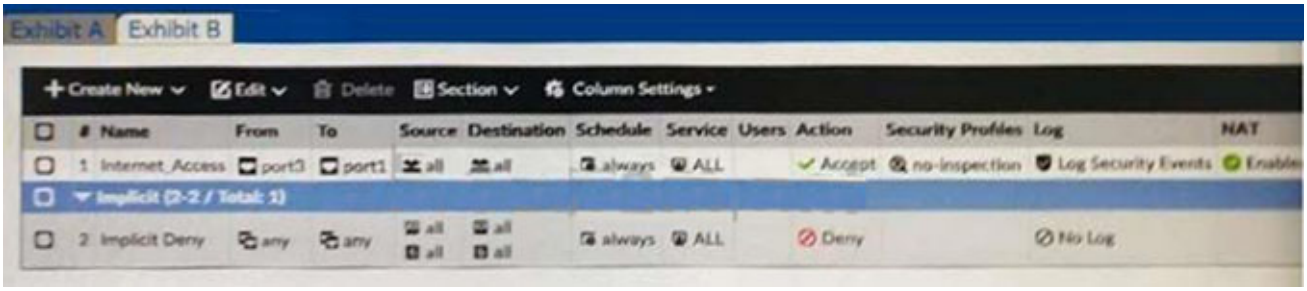


Exhibit A shows the system interface with the static routes and exhibit B shows the firewall policies on the managed FortiGate.
Based on the FortiGate configuration shown in the exhibits, what are two issues you might encounter when creating an SD-WAN interface on port1 and port2? (Choose two)
A. Member interface that have IP address of 0.0.0.0/0.0.0.0
B. Member interfaces that are referenced by any other configuration element
C. Member interfaces that are administratively down
D. Member interfaces that are physical interfaces as well as VLAN aggregate, and iPsec interfaces
Answer: BC
